New IP titles include the preschool property *Rainbow Rangers*, which debuted November 5, 2018 on Nickelodeon and preschool property *Llama Llama*; which debuted on Netflix in December 2017 and has been picked up by Netflix for a second season and is currently in production. Our library titles include the award winning *Baby Genius*, tween music-driven brand *SpacePop*; adventure comedy *Thomas Edison's Secret Lab*® and Warren Buffett's *Secret Millionaires Club*, created with and starring iconic investor Warren Buffett, which is distributed across the Company's Genius Brands Network on Comcast's Xfinity on Demand, AppleTV, Roku, Amazon Fire, You Tube and Amazon Prime as well as Connected TV and select international broadcast and streaming services. The Company also has a partnership with Stan Lee's Pow! Entertainment which it manages for creation, production, licensing and management of original Stan Lee superhero programs.

In addition, the Company acts as licensing agent for Penguin Young Readers, a division of Penguin Random House LLC who owns or controls the underlying rights to Llama Llama, leveraging its existing licensing infrastructure to expand this brand into new product categories, new retailers, and new territories.

The Company commenced operations in 2006, assuming all the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In 2011, the Company reincorporated in Nevada and changed its name to Genius Brands International, Inc. (the “Reincorporation”). In connection with the Reincorporation, the Company changed its trading symbol to “GNUS.”

In 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions, A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company.

On November 4, 2016, the Company filed a certificate to change its Articles of Incorporation to affect a reverse split on a one-for-three basis (the “2016 Reverse Split”). The 2016 Reverse Split became effective on November 9, 2016. All common stock share and per share information in this Quarterly Report on Form 10-Q (“Form 10-Q”), including the accompanying condensed consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the 2016 Reverse Split, unless otherwise indicated.

As of September 30, 2018, the Company had an accumulated deficit of \$46,973,682 and total stockholders' equity of \$16,275,962. At September 30, 2018, the Company had current assets of \$8,098,644, including cash and cash equivalents of \$5,074,026 and current liabilities of \$3,742,989. The Company had working capital of \$4,355,655 as of September 30, 2018, compared to working capital of \$8,041,279 as of December 31, 2017.

On January 8, 2018, the Company entered into a Securities Purchase Agreement with certain accredited investors pursuant to which the Company sold approximately \$1,800,000 of common stock and warrants to such investors (the “January 2018 Private Placement”). The Company issued and sold warrants to purchase 592,000 shares of common stock at an exercise price of \$3.00 per share and issued 93,000 warrants representing offering costs.

On August 17, 2018, the Company entered into a Securities Purchase Agreement (the “August 2018 Purchase Agreement”) with certain investors, pursuant to which the Company agreed to sell (i) an aggregate principal amount of \$4.50 million in secured convertible notes, convertible into shares of our common stock, at a conversion price of \$2.50 per share (the “Secured Convertible Notes”) and (ii) warrants to purchase 1,800,000 shares of our common stock at an exercise price of \$3.00 per share (the “Warrants,” and, together with the Secured Convertible Notes, the “Securities”). We received approximately \$4,500,000 in gross proceeds from the offering.

The Secured Convertible Notes are senior secured obligations and are secured by certain tangible and intangible property of the Company as described in the August 2018 Purchase Agreement. Unless earlier converted or redeemed, the Secured Convertible Notes will mature on August 20, 2019. The Secured Convertible Notes bear interest at a rate of 10% per annum and are convertible at any time until a Secured Convertible Note is no longer outstanding, in whole or in part, at the option of the holders into shares of common stock at a conversion price of \$2.50 per share. The Secured Convertible Notes have a beneficial ownership limitation such that none of the Investors have the right to convert any portion of their Secured Convertible Notes if the Investor (together with its affiliates or any other persons acting together as a group with the Investor) would beneficially own in excess of 9.99% of the number of shares of our common stock outstanding immediately after giving effect to the issuance of our common stock issuable upon conversion of such Secured Convertible Notes. In addition, the Secured Convertible Notes provide for a conversion cap such that we may not issue any shares of our common stock upon conversion of Secured Convertible Notes which would exceed the aggregate number of shares of our common stock we could issue upon conversion of the Secured Convertible Notes without breaching our obligations, if any, under Nasdaq Stock Market LLC rules and regulations.

Interest under the Secured Convertible Notes is payable in arrears beginning on September 1, 2018 and thereafter on each of December 1, 2018, March 1, 2019, June 1, 2019 and at maturity when all amounts outstanding under the Secured Convertible Notes become due and payable. Subject to certain equity conditions, we may redeem the Secured Convertible Notes at any time prior to maturity. If we do not meet such equity conditions at maturity, we are obligated to repay in cash one-sixth of the then outstanding principal amount of the Secured Convertible Notes each month for the six months following the date of maturity, with the first such payment due on the date of maturity, followed by payments each month thereafter.

The Secured Convertible Notes contain certain negative covenants, including prohibitions on the incurrence of indebtedness or liens. The Secured Convertible Notes also contain standard and customary events of default including, but not limited to, failure to make payments when due, failure to observe or perform covenants or agreements contained in the Secured Convertible Notes or the bankruptcy or insolvency of the Company or any of our subsidiaries.

The Warrants entitle the holders to purchase 1,800,000 shares of common stock. The Warrants are not exercisable until after six months from the date of issuance and expire five and half years from the date of issuance. The Warrants have an exercise price of \$3.00 per share. In the event of a “Fundamental Transaction” (as defined in the Warrants), the Investors have the right to receive the value of the Warrants as determined in accordance with the Black Scholes option pricing model.

On September 28, 2018, Llama Productions LLC, a California limited liability company (“Llama”) and a wholly-owned subsidiary of the Company, entered into a Loan and Security Agreement (the “Loan and Security Agreement”) with Bank Leumi USA (the “Lender”), pursuant to which the Lender agreed to make a secured loan in an aggregate amount not to exceed \$4,231,989 to Llama (the “Loan”). The proceeds of the Loan will be used to pay the majority of the expenses of producing, completing and delivering two 22 minute episodes and sixteen 11 minute episodes of the second season of the animated series *Llama Llama* to be initially exhibited on Netflix. To secure payment of the Loan, Llama has granted to the Lender a continuing security interest in and against, generally, all of its tangible and intangible assets, which includes all seasons of the *Llama Llama* animated series.

Under the Loan and Security Agreement, Llama can request revolving loan advances under (a) the Prime Rate Loan facility and (b) the LIBOR Loan facility, each as further described in the Loan and Security Agreement attached as an exhibit hereto. Prime Rate Loan advances shall bear interest, on the outstanding balance thereof, at a fluctuating per annum rate equal to 1.0% plus the Prime Rate (as such term is defined in the Loan and Security Agreement), provided that in no event shall the interest rate applicable to Prime Rate Loans be less than 4.0% per annum. LIBOR Loan advances shall bear interest, on the outstanding balance thereof, for the period commencing on the funding date and ending on the date which is one (1), three (3) or six (6) months thereafter, at a per annum rate equal to 3.25% plus the LIBOR determined for the applicable Interest Period (as such terms are defined in the Loan and Security Agreement), provided that in no event shall the interest rate applicable to LIBOR Loans be less than 3.25% per annum.

The Maturity Date of the Prime Rate Loan facility and LIBOR Loan facility is March 31, 2021.

In addition, on September 28, 2018, Llama and Lender entered into Amendment No. 2 to Loan and Security Agreement, effective as of August 27, 2018, by and between Llama and the Lender (the "Amendment"). Pursuant to the Amendment, the original Loan and Security Agreement, dated as of August 5, 2016 and amended as of November 7, 2017 (the "Original Loan and Security Agreement"), was amended to (i) reduce the loan commitment thereunder to \$1,768,010, which is a reduction of \$3,075,406 from the original loan commitment under the Original Loan and Security Agreement and (ii) include the Llama Llama season two obligations under the Loan and Security Agreement as obligations under the Original Loan and Security Agreement.

While the Company believes that its cash balances and working capital combined with its production facility and deal pipeline will be sufficient to fund operations for the next twelve months, there can be no assurance that cash flows from operations will continue to improve in the near future. If the Company is unable to attain profitable operations and attain positive operating cash flows, it may need to (i) seek additional funding, (ii) scale back its development or production plans, or (iii) reduce certain operations.

Note 2: Summary of Significant Accounting Policies

Basis of Presentation

The accompanying 2018 and 2017 condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc., its wholly-owned subsidiaries A Squared Entertainment LLC, Llama Productions, LLC, Rainbow Rangers LLC, as well as its interest in Stan Lee Comics, LLC ("Stan Lee Comics"). All significant inter-company balances and transactions have been eliminated in consolidation.

The financial statements have been prepared using the acquisition method of accounting in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 805 Business Combinations.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Financial Statement Reclassification

Certain account balances from prior periods have been reclassified in these condensed consolidated financial statements to conform to current period classifications.

Cash, Cash Equivalents, and Restricted Cash

The Company considers all highly liquid debt instruments with initial maturities of three months or less to be cash equivalents. As of September 30, 2018, and December 31, 2017, Restricted Cash totaled \$0 and \$568,673, respectively, which represents funds held in a cash account to be used solely for the production of *Llama Llama* as a condition of its loan agreement with Bank Leumi USA. No amounts were restricted as of September 30, 2018.

Allowance for Doubtful Accounts

Accounts receivable are presented on the consolidated balance sheets net of estimated uncollectible amounts. The Company assesses its accounts receivable balances on a quarterly basis to determine collectability and records an allowance for estimated uncollectible accounts in an amount approximating anticipated losses based on historical experience and future expectations. Individual uncollectible accounts are written off against the allowance when collection of the individual accounts appears doubtful. The Company had an allowance for doubtful accounts of \$0 and \$110,658 at September 30, 2018 and December 31, 2017 respectively.

Inventories

Inventories are stated at the lower of average cost or net realizable value and consist of finished goods such as DVDs, CDs and other products. A reserve for slow-moving and obsolete inventory is established for all inventory deemed potentially non-saleable. The current inventory is considered properly valued and saleable. The Company concluded that there was an appropriate reserve for slow moving and obsolete inventory of \$26,097 at both September 30, 2018 and December 31, 2017.

Property and Equipment

Property and equipment are recorded at cost. Depreciation on property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from two to seven years. Maintenance, repairs, and renewals, which neither materially add to the value of the assets nor appreciably prolong their lives, are charged to expense as incurred. Gains and losses from any dispositions of property and equipment are reflected in the statement of operations.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with FASB ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary method is discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill or indefinite lived intangible assets in future periods.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Film and Television Costs

The Company capitalizes production costs for episodic series produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with FASB ASC 926-20 Entertainment - Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates its capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Additionally, for both episodic series and films, from time to time, the Company develops additional content, improved animation and bonus songs/features for its existing content. After the initial release of the film or episodic series, the costs of significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition

On January 1, 2018, the Company adopted the new accounting standard ASC 606 (Topic 606), Revenue from Contracts with Customers and all the related amendments (“new revenue standard”) using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under ASC 605, (Topic 605).

Accordingly, on January 1, 2018 the Company recorded a cumulative effect adjustment to beginning accumulated deficit in the amount of \$206,247. The impact to our financial statements for the three and nine months ended September 30, 2018 resulting from the adoption of Topic 606 as of January 1, 2018 was a reduction of revenue in the amount of \$26,184 and \$162,551, respectively, and a corresponding reduction in costs in the amount of \$14,317 and \$42,952, respectively, from the amounts reported. The amounts prior to adoption were not recognized pursuant to Topic 606 and would have been reported pursuant to Topic 605.

Changes to the opening balances in prepaid and other assets, film and television costs, total assets, accrued expenses, deferred revenue and total liabilities resulting from the adoption of the new guidance were as follows (thousands):

	December 31, 2017	Impact of Adoption	January 1, 2018
Prepaid and Other Assets	\$ 265	\$ 15	\$ 280
Film and Television Costs, net	\$ 2,777	\$ (219)	\$ 2,558
Total assets	\$ 27,713	\$ (204)	\$ 27,509
Participations Payable	\$ 1,718	\$ (1)	\$ 1,717
Deferred Revenue	\$ 5,085	\$ (409)	\$ 4,676
Total liabilities	\$ 12,673	\$ (410)	\$ 12,263

The Company performed its analysis of its existing revenue contracts and has completed its new revenue accounting policy documentation under the new standard. The Company has identified the following six material and distinct performance obligations:

- License rights to exploit Functional Intellectual Property (Functional Intellectual Property or “functional IP” is defined as intellectual property that has significant standalone functionality, such as the ability be played or aired. Functional intellectual property derives a substantial portion of its utility from its significant standalone functionality.)
- License rights to exploit Symbolic Intellectual Property (Symbolic Intellectual Property or “symbolic IP” is intellectual property that is not functional as it does not have significant standalone use and substantially all of the utility of symbolic IP is derived from its association with the entity’s past or ongoing activities, including its ordinary business activities, such as the Company’s licensing and merchandising programs associated with its animated content.)
- Options to renew or extend a contract at fixed terms. (While this performance obligation is not significant for the Company’s current contracts, it could become significant in the future.)
- Options on future seasons of content at fixed terms. (While this performance obligation is not significant for the Company’s current contracts, it could become significant in the future.)
- Fixed fee advertising revenue generated from the Genius Brands Network
- Variable fee advertising revenue generated from the Genius Brands Network

As a result of the change, beginning January 1, 2018, the Company began recognizing revenue related to licensed rights to exploit functional IP in two ways. For minimum guarantees, the Company recognizes fixed revenue upon delivery of content and the start of the license period. For functional IP contracts with a variable component, the Company estimates revenue such that it is probable there will not be a material reversal of revenue in future periods. Revenue under these types of contracts was previously recognized when royalty statements were received. The Company began recognizing revenue related to licensed rights to exploit symbolic IP substantially similarly to functional IP. Although it has a different recognition pattern from functional IP, the valuation method is substantially the same, depending on the nature of the license.

The Company sells advertising on its Kid Genius channel in the form of either flat rate promotions or impressions served. For flat rate promotions with a fixed term, the Company recognizes revenue when all five revenue recognition criteria under FASB ASC 606 are met. For impressions served, the Company delivers a certain minimum number of impressions on the channel to the advertiser for which the advertiser pays a contractual CPM per impression. Impressions served are reported to the Company on a monthly basis, and revenue is reported in the month the impressions are served.

The Company recognizes revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer.

Share-Based Compensation

As required by FASB ASC 718 - Stock Compensation, the Company recognizes an expense related to the fair value of our share-based compensation awards, including stock options, using the Black-Scholes calculation as of the date of grant. The Company has elected to use the graded attribution method for awards which are in-substance, multiple awards based on the vesting schedule.

On January 1, 2018 the Company adopted the new Accounting Standard Update 2017-09, "Compensation—Stock Compensation: Scope of Modification Accounting", which clarifies which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. Under the new guidance, modification accounting is required if the fair value, vesting conditions or classification (equity or liability) of the new award are different from the original award immediately before the original award is modified. The adoption of Accounting Standard Update 2017-09 did not have a material impact on our financial statements as there were no changes to our share-based payment awards.

Earnings Per Share

Basic earnings (loss) per common share ("EPS") is calculated by dividing net income (loss) applicable to common shareholders by the weighted average number of shares of common stock outstanding for the period. Diluted EPS is calculated by dividing net income (loss) applicable to common shareholders by the weighted average number of shares of common stock outstanding, plus the assumed exercise of all dilutive securities using the treasury stock or "as converted" method, as appropriate. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive.

Income Taxes

Deferred income tax assets and liabilities are recognized based on differences between the financial statement and tax basis of assets and liabilities using presently enacted tax rates. At each balance sheet date, the Company evaluates the available evidence about future taxable income and other possible sources of realization of deferred tax assets and records a valuation allowance that reduces the deferred tax assets to an amount that represents management's best estimate of the amount of such deferred tax assets that more likely than not will be realized.

Concentration of Risk

The Company's cash is maintained at two financial institutions and from time to time the balances for this account exceed the Federal Deposit Insurance Corporation's ("FDIC") insured amount. Balances on interest bearing deposits at banks in the United States are insured by the FDIC up to \$250,000 per account. As of September 30, 2018, the Company had four accounts with a combined uninsured balance of \$4,574,026. As of December 31, 2017, the Company had four accounts with a combined uninsured balance of \$6,471,928.

For the three months ended September 30, 2018, the Company had two customers whose total revenue exceeded 10% of the total consolidated revenue. For the nine months ended September 30, 2018, the Company had one customer whose total revenue exceeded 10% of the total consolidated revenue. The Company had one customer who accounted for 89% and 98% of accounts receivable balance as of September 30, 2018 and December 31, 2017, respectively.

Fair value of financial instruments

The carrying amounts of cash, receivables, accounts payable, and accrued liabilities approximate fair value due to the short-term maturity of the instruments. The carrying amount of the Production Loan Facility approximates fair value since the debt carries a variable interest rate that is tied to either the current Prime or LIBOR rates plus an applicable spread.

We previously adopted FASB ASC 820 for financial instruments measured at fair value on a recurring basis. FASB ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Recent Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update 2016-02, "Leases." The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2018. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. We expect the impact of adoption of the new Leases accounting method on our financial statements to be minimal.

In November 2016, the FASB issued Accounting Standards Update 2016-18, "Statement of Cash Flows - Restricted Cash a consensus of the FASB Emerging Issues Task Force." This standard requires restricted cash and cash equivalents to be included with cash and cash equivalents on the statement of cash flows under a retrospective transition approach. The guidance will become effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We have prospectively adopted ASU 2016-18. The impact to our consolidated financial position, results of operations and cash flows was minimal.

In January 2017, the FASB issued Accounting Standards Update 2017-04, "Simplifying the Test for Goodwill Impairment", which requires an entity to perform a one-step quantitative impairment test, whereby a goodwill impairment loss will be measured as the excess of a reporting unit's carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). It eliminates Step 2 of the current two-step goodwill impairment test, under which a goodwill impairment loss is measured by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. The standard is effective January 1, 2020, with early adoption as of January 1, 2017 permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Various other accounting pronouncements have been recently issued, most of which represented technical corrections to the accounting literature or were applicable to specific industries/transactions or special circumstances and are not expected to have a material effect on our financial position, results of operations, or cash flows.

Note 5: Goodwill and Intangible Assets, Net

Goodwill

In connection with the merger in 2013, the Company recognized \$10,365,805 in Goodwill, representing the excess of the fair value of the consideration for the merger over net identifiable assets acquired. Pursuant to FASB ASC 350-20, Goodwill is not subject to amortization but is subject to annual review to determine if certain events warrant impairment to the Goodwill asset. Through September 30, 2018, the Company has not recognized any impairment to Goodwill.

The Company recognizes revenue related to these contracts when all revenue recognition criteria have been met. Included in the deferred revenue balance as of September 30, 2018 and December 31, 2017 is the \$2,000,000 advance against future royalty that Sony paid to the Company in the first quarter of 2016 as well as the remaining portion of the \$1,489,583 attributable to the expansion of distribution rights acquired by Sony through the January 2017 Sony Transactions.

Note 8: Secured Convertible Notes

On August 17, 2018, the Company entered into a Securities Purchase Agreement (the “Purchase Agreement”) with certain investors (the “Investors”), pursuant to which the Company agreed to sell (i) an aggregate principal amount of \$4.50 million in secured convertible notes, convertible into shares of our common stock, at a conversion price of \$2.50 per share (the “Secured Convertible Notes”) and (ii) warrants to purchase 1,800,000 shares of our common stock at an exercise price of \$3.00 per share (the “Warrants,” and, together with the Secured Convertible Notes, the “Securities”). We received approximately \$4,500,000 in gross proceeds from the Offering.

The Secured Convertible Notes are our senior secured obligations and are secured by certain tangible and intangible property of the Company as described in the Purchase Agreement. Unless earlier converted or redeemed, the Secured Convertible Notes will mature on August 20, 2019. The Secured Convertible Notes bear interest at a rate of 10% per annum and are convertible at any time until a Secured Convertible Note is no longer outstanding, in whole or in part, at the option of the holders into shares of common stock at a conversion price of \$2.50 per share. The Secured Convertible Notes have a beneficial ownership limitation such that none of the Investors have the right to convert any portion of their Secured Convertible Notes if the Investor (together with its affiliates or any other persons acting together as a group with the Investor) would beneficially own in excess of 9.99% of the number of shares of our common stock outstanding immediately after giving effect to the issuance of our common stock issuable upon conversion of such Secured Convertible Notes. In addition, the Secured Convertible Notes provide for a conversion cap such that we may not issue any shares of our common stock upon conversion of Secured Convertible Notes which would exceed the aggregate number of shares of our common stock we could issue upon conversion of the Secured Convertible Notes without breaching our obligations, if any, under Nasdaq Stock Market LLC rules and regulations.

Interest under the Secured Convertible Notes is payable in arrears beginning on September 1, 2018 and thereafter on each of December 1, 2018, March 1, 2019, June 1, 2019 and at maturity when all amounts outstanding under the Secured Convertible Notes become due and payable. Subject to certain equity conditions, we may redeem the Secured Convertible Notes at any time prior to maturity. If we do not meet such equity conditions at maturity, we are obligated to repay in cash one-sixth of the then outstanding principal amount of the Secured Convertible Notes each month for the six months following the date of maturity, with the first such payment due on the date of maturity, followed by payments each month thereafter.

The Secured Convertible Notes contain certain negative covenants, including prohibitions on the incurrence of indebtedness or liens. The Secured Convertible Notes also contain standard and customary events of default including, but not limited to, failure to make payments when due, failure to observe or perform covenants or agreements contained in the Secured Convertible Notes or the bankruptcy or insolvency of the Company or any of our subsidiaries. The conversion feature of the Secured Convertible Notes is considered linked to our common stock pursuant to ASC 815-40 and accordingly is not accounted for as a derivative.

On the date of issuance, the Secured Convertible Notes were convertible into common stock at \$2.50 per share, or at a conversion price below the closing market price of \$2.55. This “discount” is considered a beneficial conversion feature for accounting purposes. The allocation of carrying basis between the Warrants issued and the Secured Convertible Notes was determined based on relative valuation. The discount of the initial conversion price from market related to the beneficial conversion feature of the debt was \$1,561,111, and such amount was recorded as a reduction of debt and increase in additional paid-in capital. The discount will be amortized as additional interest over the term of the loan.

The Warrants entitle the holders to purchase 1,800,000 shares of common stock. The Warrants are not exercisable until after six months from the date of issuance and expire five and half years from the date of issuance. The Warrants have an exercise price of \$3.00 per share. In the event of a “Fundamental Transaction” (as defined in the Warrants), the Investors have the right to receive the value of the Warrants as determined in accordance with the Black Scholes option pricing model. The Warrants are considered linked to our common stock pursuant to ASC 815-40 and accordingly are not accounted for as a derivative.

The allocation of carrying basis between the Warrants and the Secured Convertible Notes was determined based on relative valuation. The carrying basis attributable to the Warrants to acquire common stock was \$1,471,111 and was calculated using the Black-Scholes option pricing model. This amount was recorded as a reduction of debt and an increase in additional-paid in-capital. This discount will also be amortized as additional interest over the term of the loan.

Note 9: Production Loan Facility

On August 8, 2016, Llama Productions closed a \$5,275,000 multiple draw-down, secured, non-recourse, non-revolving credit facility (the "Facility") with Bank Leumi USA to produce its animated series *Llama Llama*, (the "Series") which is configured as fifteen half-hour episodes comprised of thirty 11-minute programs that were delivered to Netflix in fall 2017. The Facility is secured by the license fees the Company will receive from Netflix for the delivery of the Series as well as the Company's copyright in the Series. The Facility has a term of 40 months and has an interest rate of either Prime plus 1% or one, three, or six-month LIBOR plus 3.25%. As a condition of the loan agreement with Bank Leumi, the Company deposited \$1,000,000 into a cash account to be used solely to produce the Series. Additionally, the Facility contains certain standard affirmative and negative non-financial covenants such as maintaining certain levels of production insurance and providing standard financial reports. As of September 30, 2018, the Company was in compliance with these covenants.

On September 28, 2018, Llama Productions LLC, a California limited liability company ("Llama") and a wholly-owned subsidiary of the Company, entered into a Loan and Security Agreement (the "Loan and Security Agreement") with Bank Leumi USA (the "Lender"), pursuant to which the Lender agreed to make a secured loan in an aggregate amount not to exceed \$4,231,989 to Llama (the "Loan"). The proceeds of the Loan will be used to pay the majority of the expenses of producing, completing and delivering two 22 minute episodes and sixteen 11 minute episodes of the second season of the animated series *Llama Llama* to be initially exhibited on Netflix.

To secure payment of the Loan, Llama has granted to the Lender a continuing security interest in and against, generally, all of its tangible and intangible assets, which includes all seasons of the *Llama Llama* animated series.

Under the Loan and Security Agreement, Llama can request revolving loan advances under (a) the Prime Rate Loan facility and (b) the LIBOR Loan facility, each as further described in the Loan and Security Agreement attached as an exhibit hereto. Prime Rate Loan advances shall bear interest, on the outstanding balance thereof, at a fluctuating per annum rate equal to 1.0% plus the Prime Rate (as such term is defined in the Loan and Security Agreement), provided that in no event shall the interest rate applicable to Prime Rate Loans be less than 4.0% per annum. LIBOR Loan advances shall bear interest, on the outstanding balance thereof, for the period commencing on the funding date and ending on the date which is one (1), three (3) or six (6) months thereafter, at a per annum rate equal to 3.25% plus the LIBOR determined for the applicable Interest Period (as such terms are defined in the Loan and Security Agreement), provided that in no event shall the interest rate applicable to LIBOR Loans be less than 3.25% per annum. The Maturity Date of the Prime Rate Loan facility and LIBOR Loan facility is March 31, 2021.

As of September 30, 2018, there were no amounts outstanding under this production facility. As of September 30, 2018, \$120,675 representing loan fees were included in prepaid and other assets and accrued expenses.

In addition, on September 28, 2018, Llama and Lender entered into Amendment No. 2 to Loan and Security Agreement, effective as of August 27, 2018, by and between Llama and the Lender (the "Amendment"). Pursuant to the Amendment, the original Loan and Security Agreement, dated as of August 5, 2016 and amended as of November 7, 2017 (the "Original Loan and Security Agreement"), was amended to (i) reduce the loan commitment thereunder to \$1,768,010, which is a reduction of \$3,075,406 from the original loan commitment under the Original Loan and Security Agreement and (ii) include the Llama Llama season two obligations under the Loan and Security Agreement as obligations under the Original Loan and Security Agreement.

As of September 30, 2018, the Company had gross outstanding borrowing under the facility of \$1,726,572 against which financing costs of \$80,677 were applied resulting in net borrowings of \$1,645,895. As of December 31, 2017, the Company had gross outstanding borrowing under the facility of \$4,436,528 against which financing costs of \$113,885 were applied resulting in net borrowings of \$4,322,643.

Note 10: Disputed Trade Payable

As part of the merger in 2013, the Company assumed certain liabilities from a previous member of A Squared which has claimed certain liabilities totaling \$925,000. The Company disputes the basis for this liability. As of September 30, 2018, the Company believes that the statute of limitations applicable to the assertion of any legal claim relating to the collection of these liabilities has expired and therefore believes this liability is uncollectible.

Note 11: Stockholders' Equity

On October 6, 2016, the Board of Directors of the Company authorized a reverse stock split in preparation for the Company's anticipated up listing on the Nasdaq Capital Market.

On November 4, 2016, the Company filed a certificate of change to the Company's Articles of Incorporation with the Secretary of State of the State of Nevada to affect a one-for-three reverse stock split of the Company's issued and outstanding common stock. As a result of the 2016 Reverse Split, every three shares of the Company's issued and outstanding common stock were automatically combined and reclassified into one share of the Company's common stock. The 2016 Reverse Split affected all issued and outstanding shares of common stock, as well as common stock underlying stock options and warrants outstanding. No fractional shares were issued in connection with the 2016 Reverse Split. Stockholders who would otherwise hold a fractional share of common stock will receive an increase to their common stock as the common stock will be rounded up to a full share. The total number of authorized shares of common stock was reduced from 700,000,000 to 233,333,334 in conjunction with the 2016 Reverse Split. The 2016 Reverse Split became effective on November 9, 2016. All disclosures of shares and per share data in these consolidated financial statements and related notes have been retroactively adjusted to reflect the reverse stock split for all periods presented.

On February 9, 2017, the Company entered into a private transaction pursuant to a Warrant Exercise Agreement with certain holders of the Company's existing warrants (the "Original Warrants"). Pursuant to the Warrant Exercise Agreement, the holders of the Original Warrants and the Company agreed that such Original Warrant holders would exercise their Original Warrants in full, and the Company would issue to each such holder new warrants. (See Note 11 for additional information about these warrants.) In association with the transaction, the Company issued 1,171,690 shares of common stock upon exercise of a portion of the Original Warrants for which it received gross proceeds of \$3,866,573 and recording offering costs of \$465,915 for net proceeds of \$3,400,658.

Pursuant to a Securities Purchase Agreement, the Company issued to the Investors approximately 592,000 shares of common stock at a per share price of \$3.00 and warrants to purchase approximately 592,000 shares of common stock. The warrants were immediately exercisable, will be exercisable for a period of five years from the closing date and have an exercise price of \$3.00 per share. The closing of the sale of these securities under the Securities Purchase Agreement occurred on January 10, 2018.

On August 17, 2018, the Company entered into a Securities Purchase Agreement in which the Company issued to the investors approximately 1,800,000 warrants to purchase shares of common stock at an exercise price of \$3.00 per share. The Warrants are not exercisable until after six months from the date of issuance and expire five and half years from the date of issuance. In the event of a “Fundamental Transaction” (as defined in the Warrants), the Investors have the right to receive the value of the Warrants as determined in accordance with the Black Scholes option pricing model.

During the three and nine months ended September 30, 2018, the Company issued 321,697 shares and 599,205 shares of common stock, respectively to a vendor for animation services. As of September 30, 2018, and December 31, 2017, there were 9,272,000 and 7,610,794 shares of common stock outstanding, respectively.

Preferred Stock

The Company has 10,000,000 shares of preferred stock authorized with a par value of \$0.001 per share. The Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by our stockholders, to issue from time to time shares of preferred stock in one or more series. Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

As of September 30, 2018, and December 31, 2017, there were 2,120 and 3,530 shares of Series A Convertible Preferred Stock outstanding, respectively.

On May 12, 2014, the Board of Directors authorized the designation of a class of preferred stock as “Series A Convertible Preferred Stock.” On May 14, 2014, the Company filed the Certificate of Designation, Preferences and Rights of the 0% Series A Convertible Preferred Stock with the Secretary of State of the State of Nevada.

Each share of the Series A Convertible Preferred Stock is convertible into shares of the Company’s common stock, par value \$0.001 per share, based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Convertible Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Convertible Preferred Stock is \$1,000 and the initial conversion price is \$6.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event the Company issues shares of its common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. The Company is prohibited from effecting a conversion of the Series A Convertible Preferred Stock to the extent that as a result of such conversion, the investor would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of the Company’s common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Convertible Preferred Stock. The shares of Series A Convertible Preferred Stock possess no voting rights.

On May 14, 2014, we entered into securities purchase agreements with certain accredited investors pursuant to which we sold an aggregate of 6,000 shares of our then newly designated Series A Convertible Preferred Stock at a price of \$1,000 per share for gross proceeds to us of \$6,000,000. Related to the sale, we incurred offering costs of \$620,085 resulting in net proceeds of \$5,379,915. The transaction closed on May 15, 2014.

As the conversion price of the Series A Convertible Preferred Stock on a converted basis was below the market price of the common shares on the closing date, this resulted in a beneficial conversion feature recorded as an “imputed” dividend of \$2,010,000. In addition, during the fourth quarter of 2015, in connection with the 2015 Private Placement in which the Company’s common stock was sold at \$3.00 per share, the conversion price of the Series A Convertible Preferred Stock decreased to \$3.00. This decrease resulted in an additional beneficial conversion feature of \$3,383,850 recognized as of the time of the 2015 Private Placement.

On August 17, 2018, in connection with the Securities Purchase Agreement in which the Secured Convertible Notes are convertible into shares of the Company's common stock at \$2.50 per share, the conversion price of the Series A Convertible Preferred Stock decreased to \$2.50. This decrease resulted in a beneficial conversion feature of \$353,333 which was recognized on August 17, 2018.

During the nine months ended September 30, 2018, 1,410 shares of Series A Preferred Stock were converted into 470,001 shares of common stock respectively.

In the future, issuance of common stock or the grant of any rights to purchase our common stock or other securities convertible into our common stock for a per share price less than the then existing conversion price of the Series A Convertible Preferred Stock would result in an adjustment to the then current conversion price of the Series A Convertible Preferred Stock. This reduction would give rise to a beneficial conversion feature recorded as an "imputed" dividend.

The Company has warrants outstanding to purchase up to 5,899,389 and 3,414,389 shares as of September 30, 2018 and December 31, 2017, respectively.

The Original Warrants were exercisable immediately. The Company is prohibited from effecting an exercise of the warrants to the extent that as a result of such exercise, the holder would beneficially own more than 4.99% (subject to increase up to 9.99% upon 61 days' notice) in the aggregate of the issued and outstanding shares of common stock, calculated immediately after giving effect to the issuance of shares of common stock upon exercise of the warrant.

In addition, depending on the number of Original Warrants exercised by all holders of the Original Warrants, the Company also agreed to issue to the holders another new warrant, identical to the Original Warrant except that the exercise price of such warrant is \$5.30 and such warrant is not exercisable until August 10, 2017 (the "Market Price Warrants" and together with the Reload Warrants, the "New Warrants").

The warrants were issued to the parties who purchased the Company's Secured Convertible Notes. The Warrants are not exercisable until after six months from the date of issuance and expire five and half years from the date of issuance. The Warrants have an exercise price of \$3.00 per share. In the event of a "Fundamental Transaction" (as defined in the Warrants), the Investors have the right to receive the value of the Warrants as determined in accordance with the Black Scholes option pricing model. The Warrants are considered linked to our common stock pursuant to ASC 815-40 and accordingly are not accounted for as a derivative.

Note 14: Income Taxes

The Company accounts for income taxes in accordance with Accounting Standards Codification Topic 740 Income Taxes ("Topic 740"), which requires the recognition of deferred tax liabilities and assets at currently enacted tax rates for the expected future tax consequences of events that have been included in the financial statements or tax returns. A valuation allowance is recognized to reduce the net deferred tax asset to an amount that is more likely than not to be realized.

Topic 740 provides guidance on the accounting for uncertainty in income taxes recognized in a company's financial statements. ASC 740 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements.

The Company includes interest and penalties arising from the underpayment of income taxes in the statements of operation in the provision for income taxes. As of September 30, 2018 and December 31, 2017, the Company had no accrued interest or penalties related to uncertain tax positions.

On December 22, 2017, the United States federal government enacted the Tax Cuts and Jobs Act (the “2017 Act”). The 2017 Act will have pervasive financial reporting implications for all companies with U.S. operations, including reduction of the U.S. federal corporate tax rate from 35 percent to 21 percent. We reviewed and incorporated the new tax bill implications through 2017 financial statements. We remeasured the deferred taxes at new corporation rate of 21%, which reduced the net deferred tax assets, before valuation allowance, by approximately \$2,809,700. Due to full valuation allowance, the change in deferred taxes was fully offset by the change in valuation allowance. The 2017 Act has no significant impact on the financial statements for the nine months ended September 30, 2018 or for the year ended December 31, 2017.

Due to the complexities of the 2017 Act, the SEC issued Staff Accounting Bulletin No. 118 to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the 2017 Act. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared, or analyzed. Any subsequent adjustment to these amounts will be recorded to current tax expense in 2018 when the analysis is complete.

The Company files income tax returns in the U.S. federal jurisdiction and in the state of California and Massachusetts. The Company is currently subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities since inception of the Company.

Note 15: Commitments and Contingencies

The Company has various contractual obligations, which are recorded as liabilities in our consolidated financial statements. Other items, such as certain purchase commitments and other executory contracts are not recognized as liabilities in our consolidated financial statements but are required to be disclosed in the footnotes to the financial statements. For example, the Company is contractually committed to make certain minimum lease payments for the use of property under its operating lease. In addition, the Company has contractual commitments for employment agreements of certain employees.

On February 6, 2018, the Company entered into a lease for approximately 6,969 square feet of general office space at 131 South Rodeo Drive, Suite 250, Beverly Hills, CA 90212 pursuant to a 91-month lease that commenced on June 22, 2018. The Company will pay rent of \$364,130 annually, subject to annual escalations of 3.5%.

Rental expenses incurred for operating leases during the three months ended September 30, 2018 and 2017 were \$130,173 and \$35,862, respectively including deferred rent of \$35,511 during the three months ended September 30, 2018. Rental expenses incurred for operating leases during the nine months ended September 30, 2018 and 2017 were \$241,578 and \$106,884, respectively including deferred rent of \$35,511 for the nine months ended September 30, 2018.

The following is a schedule of future minimum contractual obligations as of September 30, 2018, under the Company’s operating leases and employment agreements:

	<u>2018</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2022</u>	<u>Thereafter</u>

In addition to employment agreements and operating leases, in the normal course of its business, the Company enters into various agreements associated with its individual properties. Some of these agreements call for the potential future payment of royalties or “profit” participations for either (i) the use of third party intellectual property, such as the case with *Stan Lee and the Mighty 7* and *Llama Llama* among others, in which the Company is obligated to share net profits with the underlying rights holders on a certain basis as defined in the respective agreements or (ii) services rendered by animation studios, post-production studios, writers, directors, musicians or other creative talent for which the Company is obligated to share with these service providers a portion of the net profits of the properties on which they have rendered services, as defined in each respective agreement.

Additionally, other agreements contain options to acquire rights to intellectual property and would require payment to the rights holders contingent upon the Company securing minimum production, broadcast, or other financing commitments from third parties.

For Genius Brands Network, the Company licenses content for exhibition for which the Company is obligated to pay between 35% and 100% of revenues from the channel allocated to the aforementioned content after the deduction of certain direct operating expenses.

The Company is scheduled to participate in a mediation with one of its' co-producers/third party participants regarding amounts owed under a production agreement. The parties disagree on the definition of "Net Receipts" and the amounts deductible prior to the sharing of profits. The Company believes its definition of "Net Receipts" will prevail as a result of the mediation. In the event the Company is unsuccessful, the amount owed, and the impact will not have a material effect on the Company or its financial statements.

Licensing & Royalties revenue includes items for which we license the rights to our copyrights and trademarks of our brands and those of the brands for which we act as a licensing agent. During the three months ended September 30, 2018, compared to September 30, 2017, this Licensing and Royalties revenue increased \$116,245 or 123% primarily due to domestic revenues for the *Rainbow Rangers* and *Llama Llama* properties, partially offset by the cumulative effect adjustment made as a result of adopting new accounting standard ASC 606. The impact of the adoption reduced revenues for the three months ended September 30, 2018 by \$12,500. There was also decreases in revenues from our *SpacePop* property and the non-renewal of the Celessence agency agreement.

Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television, VOD, or SVOD in domestic and international markets and the sale of DVDs for home entertainment through our partners. Fluctuations in Television & Home Entertainment revenue occur period over period based on the achievement of revenue recognition criteria such as the start of a license period and the delivery of the content to the customer. During the three months ended September 30, 2018, compared to September 30, 2017, Television & Home Entertainment revenue increased \$41,516 or 27% primarily due to revenue generated from the delivery of the *Llama Llama* content for domestic home entertainment distribution. This increase was partially offset by the cumulative effect adjustment made as a result of adopting new accounting standard ASC 606. The impact of the adoption reduced revenues for the three months ended September 30, 2018 by \$13,684. There were also decreases in international television revenue.

Advertising sales are generated on the Kid Genius Cartoon Channel in the form of either flat rate promotions or advertising impressions served. Advertising sales increased by \$108,619, or 1,550% during the three months ended September 30, 2018 compared to the three months ended September 30, 2017 primarily due to the addition of a new distribution partner, increased advertising impressions served and additional ad campaigns in 2018. This was a result of our efforts to continue to grow this area of the business through new distribution channels and with new partners.

Product sales represent physical products in which we hold intellectual property rights such as trademarks and copyrights to the characters and which are manufactured and sold by us directly. During the three months ended September 30, 2018, product sales associated with Warren Buffett's *Secret Millionaires Club* increased \$293, or 488% compared to the three months ended September 30, 2017 due to additional sales of the Warren Buffett Doll on Amazon.com.

This increase in amortization expense is primarily related to increased revenues for the *Rainbow Rangers* and *Llama Llama – Season 1*. The increase in participation expense is primarily related to expensing the balance of prepaid royalties for the *Thomas Edison's Secret Laboratory* property as a result of a reduction in the ultimate revenues and participation expense associated with the *Rainbow Rangers* and *Llama Llama* revenues.

General and administrative expenses consist primarily of salaries, employee benefits, share-based compensation related to stock options, insurance, rent, depreciation and amortization as well as other professional fees related to finance, accounting, legal and investor relations. Liquidity and Capital Resources

Working Capital

As of September 30, 2018, we had current assets of \$8,098,644, including cash, cash equivalents, of \$5,074,026, and current liabilities of \$3,742,989, resulting in working capital of \$4,355,655 compared to working capital of \$8,041,279 as of December 31, 2017.

Net working capital decreased \$3,685,624. Working capital increased as a result of the \$1,776,000 of gross proceeds received for the sale of common stock and warrants to accredited investors in connection with the private placement transaction in January 2018. In the same transaction, we also issued and sold warrants to purchase 592,000 shares of common stock at an exercise price of \$3.00 per share. Working capital also increased as a result of the \$4,500,000 of gross proceeds from the issuance of the Senior Secured Convertible Notes in August of 2018. These increases were more than offset by the production costs of *Rainbow Rangers*, collections of current receivables used to pay down the production facility which long term and general overhead incurred during the nine months ended September 30, 2018 including a lease deposit of \$325,000.

Credit Facility

On August 8, 2016, Llama Productions LLC, our wholly-owned subsidiary, closed a \$5,275,000 multiple draw-down, secured, non-recourse, non-revolving credit facility (the “Facility”) with Bank Leumi USA to produce our animated series *Llama Llama* (the “Series”). The Series is configured as fifteen half-hour episodes comprised of thirty 11-minute programs to be delivered to Netflix in Fall 2017. The Facility is secured by the license fees we will receive from Netflix for the delivery of the Series as well as our copyright in the Series. The Facility has a term of 40 months and has an interest rate of either Prime plus 1% or one, three, or six month LIBOR plus 3.25%. As a condition of the loan agreement with Bank Leumi, we deposited \$1,000,000 into a cash account to be used solely for the production of the series. Additionally, the Facility contains certain standard affirmative and negative non-financial covenants such as maintaining certain levels of production insurance and providing standard financial reports. As of September 30, 2018, the Company was in compliance with these covenants. During the nine months ended September 30, 2018, the Facility was repaid \$2,191,118 and the remaining collateral net of interest and fees was released and used to further pay down the loan by \$485,630. The Facility net balance as of September 30, 2018 is \$1,645,895.

Pursuant to the Amendment, the original Loan and Security Agreement, dated as of August 5, 2016 and amended as of November 7, 2017 (the “Original Loan and Security Agreement”), was amended to (i) reduce the loan commitment thereunder to \$1,768,010, which is a reduction of \$3,075,406 from the original loan commitment under the Original Loan and Security Agreement and (ii) include the *Llama Llama* season two as obligations under the Original Loan and Security Agreement.

On September 28, 2018, Llama Productions LLC, a California limited liability company (“Llama”) and a wholly-owned subsidiary of the Company, entered into a Loan and Security Agreement (the “September 2018 Loan and Security Agreement”) with Bank Leumi USA (the “Lender”), pursuant to which the Lender agreed to make a secured loan in an aggregate amount not to exceed \$4,231,989 to Llama (the “Loan”). The proceeds of the Loan will be used to pay the majority of the expenses of producing, completing and delivering two 22-minute episodes and sixteen 11-minute episodes of the second season of the animated series *Llama Llama* to be initially exhibited on Netflix.

To secure payment of the Loan, Llama has granted to the Lender a continuing security interest in and against, generally, all of its tangible and intangible assets, which includes all seasons of the *Llama Llama* animated series.

Under the September 2018 Loan and Security Agreement, Llama can request revolving loan advances under (a) the Prime Rate Loan facility and (b) the LIBOR Loan facility, each as further described in the September 2018 Loan and Security Agreement attached as an exhibit hereto. Cash provided by financing activities	3,105,647	5,436,652	(2,331,005)	(43)%
Increase (decrease) in cash	<u>\$ (2,424,047)</u>	<u>\$ 359,481</u>	<u>\$ (2,783,528)</u>	(774)%

During the nine months ended September 30, 2018, our primary sources of cash were the \$1,596,343 in net proceeds from the sale of securities under a Securities Purchase Agreement, \$4,186,054 in net proceeds from the issuance of Senior Secured Notes and accounts receivable collections of \$2,250,000 from the *Llama Llama* broadcast agreement. During the nine months ended September 30, 2017, our primary sources of cash were the net proceeds of \$3,401,924 from a warrant exchange, coupled with \$2,034,728 in proceeds from the *Llama Llama* production facility.

Operating Activities

Cash used in operating activities for the nine months ended September 30, 2018 was \$5,486,708 as compared to cash used in operating activities of \$5,029,810 during the prior period. The increase in cash used in operating activities is primarily the result of production costs incurred for the production of *Rainbow Rangers*, decreases in accounts receivable due to collections from the *Llama Llama* broadcast agreement and the lease deposit in 2018.

Investing Activities

Cash used in investing activities for the nine months ended September 30, 2018 was \$42,986 as compared to a use of \$47,361 for the nine months ended September 30, 2017. Investing activities include the development of certain intangible assets and the purchase of furniture and equipment in 2018.

Financing Activities

Cash generated from financing activities for the nine months ended September 30, 2018 was \$3,105,647 as compared to \$5,436,652 generated in the comparable period in 2017. During the nine months ended September 30, 2018, the sources of cash generated from financing activities were the \$1,596,341 in net proceeds from the sale of securities under a Securities Purchase Agreement and \$4,186,054 in net proceeds from the issuance of Senior Secured Notes. The use of cash was the repayment of the production facility in the amount of \$2,676,748. During the nine months ended September 30, 2017 the sources of cash generated from financing activities were the \$3,401,924 in net proceeds from the warrant exchange coupled with the \$2,034,728 in proceeds from the *Llama Llama* production facility.

On August 17, 2018, the Company entered into a Securities Purchase Agreement (the "August 2018 Purchase Agreement") with certain investors, pursuant to which the Company agreed to sell (i) an aggregate principal amount of \$4.50 million in secured convertible notes, convertible into shares of our common stock, at a conversion price of \$2.50 per share (the "Secured Convertible Notes") and (ii) warrants to purchase 1,800,000 shares of our common stock at an exercise price of \$3.00 per share (the "Warrants," and, together with the Secured Convertible Notes, the "Securities"). We received approximately \$4,500,000 in gross proceeds from the offering.

The Secured Convertible Notes are senior secured obligations and are secured by certain tangible and intangible property of the Company as described in the August 2018 Purchase Agreement. Unless earlier converted or redeemed, the Secured Convertible Notes will mature on August 20, 2019. The Secured Convertible Notes bear interest at a rate of 10% per annum and are convertible at any time until a Secured Convertible Note is no longer outstanding, in whole or in part, at the option of the holders into shares of common stock at a conversion price of \$2.50 per share. The Secured Convertible Notes have a beneficial ownership limitation such that none of the Investors have the right to convert any portion of their Secured Convertible Notes if the Investor (together with its affiliates or any other persons acting together as a group with the Investor) would beneficially own in excess of 9.99% of the number of shares of our common stock outstanding immediately after giving effect to the issuance of our common stock issuable upon conversion of such Secured Convertible Notes. In addition, the Secured Convertible Notes provide for a conversion cap such that we may not issue any shares of our common stock upon conversion of Secured Convertible Notes which would exceed the aggregate number of shares of our common stock we could issue upon conversion of the Secured Convertible Notes without breaching our obligations, if any, under Nasdaq Stock Market LLC rules and regulations.

Interest under the Secured Convertible Notes is payable in arrears beginning on September 1, 2018 and thereafter on each of December 1, 2018, March 1, 2019, June 1, 2019 and at maturity when all amounts outstanding under the Secured Convertible Notes become due and payable. Subject to certain equity conditions, we may redeem the Secured Convertible Notes at any time prior to maturity. If we do not meet such equity conditions at maturity, we are obligated to repay in cash one-sixth of the then outstanding principal amount of the Secured Convertible Notes each month for the six months following the date of maturity, with the first such payment due on the date of maturity, followed by payments each month thereafter.

The Secured Convertible Notes contain certain negative covenants, including prohibitions on the incurrence of indebtedness or liens. The Secured Convertible Notes also contain standard and customary events of default including, but not limited to, failure to make payments when due, failure to observe or perform covenants or agreements contained in the Secured Convertible Notes or the bankruptcy or insolvency of the Company or any of our subsidiaries. The conversion feature of the Secured Convertible Notes is considered linked to our common stock pursuant to ASC 815-40 and accordingly is not accounted for as a derivative.

On the date of issuance, the Secured Convertible Notes were convertible into common stock at \$2.50 per share, or at a conversion price below the closing market price of \$2.55. This “discount” is considered a beneficial conversion feature for accounting purposes. The allocation of carrying basis between the Warrants issued and the Secured Convertible Note was determined based on relative valuation. The discount of the initial conversion price from market related to the beneficial conversion feature of the debt was \$1,561,111, and such amount was recorded as a reduction of debt and increase in additional paid-in capital. The discount will be amortized as additional interest over the term of the loan.

The Warrants entitle the holders to purchase 1,800,000 shares of common stock. The Warrants are not exercisable until after six months from the date of issuance and expire five and half years from the date of issuance. The Warrants have an exercise price of \$3.00 per share. In the event of a “Fundamental Transaction” (as defined in the Warrants), the Investors have the right to receive the value of the Warrants as determined in accordance with the Black Scholes option pricing model. The Warrants are considered linked to our common stock pursuant to ASC 815-40 and accordingly are not accounted for as a derivative.

The allocation of carrying basis between the Warrants and the Secured Convertible Notes was determined based on relative valuation. The carrying basis attributable to the Warrants to acquire common stock was \$1,471,111 and was calculated using the Black-Scholes option pricing model. This amount was recorded as a reduction of debt and an increase in additional-paid in-capital. This discount will also be amortized as additional interest over the term of the loan.

Capital Expenditures

As of September 30, 2018, we do not have any material commitments for capital expenditures.

Critical Accounting Policies

Our accounting policies are described in the notes to the financial statements. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of its financial statements.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc., its wholly-owned subsidiaries A Squared and Llama Productions as well as its interest in Stan Lee Comics, LLC (“Stan Lee Comics”). All significant inter-company balances and transactions have been eliminated in consolidation.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with FASB ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. We complete the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary method is discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill or indefinite lived intangible assets in future periods.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. In accordance with FASB ASC 350 Intangible Assets, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Film and Television Costs

We capitalize production costs for episodic series produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. We expense all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

We capitalize production costs for films produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. We evaluate our capitalized production costs annually and limit recorded amounts by our ability to recover such costs through expected future sales.

Additionally, for both episodic series and films, from time to time, we develop additional content, improved animation and bonus songs/features for our existing content. After the initial release of the film or episodic series, the costs of significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition

On January 1, 2018, we adopted the new accounting standard ASC 606 (Topic 606), Revenue from Contracts with Customers and all the related amendments (“new revenue standard”) using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under ASC 605, (Topic 605).

Accordingly, on January 1, 2018 we recorded a cumulative effect adjustment to beginning Accumulated Deficit in the amount of \$206,247. The impact to our financial statements for the three and nine months ended September 30, 2018 resulting from the adoption of Topic 606 as of January 1, 2018 was a reduction of revenue in the amount \$26,184 and \$162,551, respectively, and a corresponding reduction in costs in the amount of \$14,317 and \$42,952, respectively, from the amounts reported. The amounts prior to adoption were not recognized pursuant to Topic 606 and would have been reported pursuant to Topic 605.

Changes to the opening balances in prepaid and other assets, film and television costs, total assets, accrued expenses, deferred revenue and total liabilities resulting from the adoption of the new guidance were as follows (thousands):

	December 31, 2017	Impact of Adoption	January 1, 2018
Prepaid and Other Assets	\$ 265	\$ 15	\$ 280
Film and Television Costs, net	2,777	(219)	2,558
Total assets	27,713	(204)	27,509
Accrued Expenses	1,718	(1)	1,717
Deferred Revenue	5,085	(409)	4,676
Total liabilities	12,673	(410)	12,263

We performed an analysis of our existing revenue contracts and completed our new revenue accounting policy documentation under the new standard. The Company has identified the following six material and distinct performance obligations:

- License rights to exploit Functional Intellectual Property (Functional Intellectual Property or “functional IP” is defined as intellectual property that has significant standalone functionality for example ability be played or aired. Functional intellectual property derives a substantial portion of its utility from its significant standalone functionality.)
- License rights to exploit Symbolic Intellectual Property (Symbolic Intellectual Property or “symbolic IP” is intellectual property that is not functional as it does not have significant standalone use and substantially all of the utility of symbolic IP is derived from its association with the entity’s past or ongoing activities, including its ordinary business activities, such as the Company’s licensing and merchandising programs associated with its animated content.)
- Options to renew or extend a contract at fixed terms. (While this performance obligation is not significant for our current contracts, it could become significant in the future.)
- Options on future seasons of content at fixed terms. (While this performance obligation is not significant for our current contracts, it could become significant in the future.)
- Fixed fee advertising revenue generated from the Genius Brands Network
- Variable fee advertising revenue generated from the Genius Brands Network

As a result of the change, beginning January 1, 2018, we began recognizing revenue related to licensed rights to exploit functional IP in two ways. For minimum guarantees, we will recognize fixed revenue upon delivery of content and the start of the license period. For functional IP contracts with a variable component, we will estimate revenue such that it is probable there will not be a material reversal of revenue in future periods. Revenue under these types of contracts was previously recognized when royalty statements were received. We began recognizing revenue related to licensed rights to exploit symbolic IP substantially similarly to functional IP. Although it has a different recognition pattern from functional IP, the valuation method is substantially the same, depending on the nature of the license.

We sell advertising on our Kid Genius channel in the form of either flat rate promotions or impressions served. For flat rate promotions with a fixed term, we recognize revenue when all five revenue recognition criteria under FASB ASC 606 are met. For impressions served, we deliver a certain minimum number of impressions on the channel to the advertiser for which the advertiser pays a contractual CPM per impression. Impressions served are reported to us on a monthly basis, and revenue is reported in the month the impressions are served.

We recognize revenue related to product sales when (i) the seller’s price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Recent Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update 2016-02, "Leases". The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2018. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In November 2016, the FASB issued Accounting Standards Update 2016-18, "Statement of Cash Flows - Restricted Cash a consensus of the FASB Emerging Issues Task Force." This standard requires restricted cash and cash equivalents to be included with cash and cash equivalents on the statement of cash flows under a retrospective transition approach. The guidance will become effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We have prospectively adopted ASU 2016-18. The impact to our consolidated financial position, results of operations and cash flows is minimal.

In January 2017, the FASB issued Accounting Standards Update 2017-04, "Simplifying the Test for Goodwill Impairment", which requires an entity to perform a one-step quantitative impairment test, whereby a goodwill impairment loss will be measured as the excess of a reporting unit's carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). It eliminates Step 2 of the current two-step goodwill impairment test, under which a goodwill impairment loss is measured by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. The standard is effective January 1, 2020, with early adoption as of January 1, 2017, permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Various other accounting pronouncements have been recently issued, most of which represented technical corrections to the accounting literature or were applicable to specific industries and are not expected to have a material effect on our financial position, results of operations, or cash flows.

Off Balance Sheet Arrangements

We have no off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Disclosure controls and procedures include, without limitation, controls and procedures that are designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based upon our evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were not effective for the period ended September 30, 2018 in ensuring that information that we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

In the course of our review of our consolidated financial results for the three months and nine months ended September 30, 2018, we identified a potential material weakness in our internal control over financial reporting related to our failure to adequately evaluate the accounting treatment for the warrants issued in conjunction with the convertible notes in a timely manner.

Management is in the process of conducting further review of our internal control policy to ensure it can effectively implement controls to evaluate complex accounting issues in the future. We have replaced our Controller and are taking further steps to appropriately and timely evaluate complex accounting issues in the future.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations over Internal Controls

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations, including the possibility of human error and circumvention by collusion or overriding of controls. Accordingly, even an effective internal control system may not prevent or detect material misstatements on a timely basis. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

On November 16, 2018, Genius Brands International, Inc. (the “**Company**”) entered into an Amended and Restated Employment Agreement (the “**Employment Agreement**”) with Andy Heyward, pursuant to which Mr. Heyward will continue to serve as the Company’s Chief Executive Officer, effective as of November 16, 2018 (the “**Effective Date**”). The Employment Agreement supersedes and replaces Mr. Heyward’s prior employment agreement, dated as of November 15, 2015.

Under the terms of the Employment Agreement, Mr. Heyward will continue to perform his duties as the Company’s Chief Executive Officer with an annual base salary of \$300,000 (the “**Base Salary**”). The Employment Agreement is for a term of five (5) years from the Effective Date, which term may only be extended by a written agreement between the parties (the “**Term**”). Following the end of each fiscal year, and subject to the approval of the Compensation Committee of the Company’s Board of Directors (the “**Compensation Committee**”), Mr. Heyward is eligible to receive a target bonus of 75% of the Base Salary, which shall be determined by the Company based on Mr. Heyward’s performance, the performance of the Company and any such other criteria as the Compensation Committee may consider in its sole discretion.

Upon the termination or expiration of Mr. Heyward’s employment with the Company and for a period of three (3) years thereafter, certain amounts paid to Mr. Heyward, including any discretionary bonus and stock-based compensation, but excluding the Base Salary and reimbursement of certain expenses, will be subject to the Company’s clawback right upon the occurrence of certain events which are adverse to the Company, including a restatement of financial statements.

Under the Employment Agreement, Mr. Heyward is also subject to confidentiality, non-competition and non-solicitation provisions and has agreed not to compete with the Company during the term of his employment and for a period of twelve (12) months following the termination of his employment.

The foregoing description of the Employment Agreement is a summary of the material terms thereof and is qualified in its entirety by the complete text of the Employment Agreement, which is attached hereto as Exhibit 10.1 to this Current Report on Form 8-K and is incorporated herein by reference.
